3. For those of you with a Smart Phone there is **preferred** method to report scores.

- a. You need to be able to scan a QR code. There are plenty of free apps available for various mobile operating systems
  - After your game is complete the <u>WINNING TEAM ONLY</u> scans the QR Code on the top of your game card. If there is a tie, coaches talk after the game and agree that one of you will enter the score. <u>Please confirm with the referee to</u> <u>be certain that you are entering the correct score</u>
  - ii. After you scan the code you'll see an entry screen like Figure 1. You can actually enter scores for any game from this screen just by changing the game #.

iii. Once you've input the correct game number if you need to, and select "Go" you should see the teams listed that you are reporting for and can now input your score. Simply touch the empty box next to the "H" or "A" and another box will appear at the bottom (figure 3). Enter the score there and "SAVE" and the screen will update showing the proper score (figure 4). If you've input incorrectly you can correct from within this screen.

If you notice an incorrect score has been entered, and you weren't the one to enter it, call or text 703-864-0418 and it will be taken care of. If you were the one who made the mistake you can go ahead and self-correct it. If not, please note the game # in the text or be prepared to tell me when you call so that I can quickly fix it

4. The other method to report scores is to call the number at the top of the game card and follow the prompts using the event ID, PIN and game number all listed on the card
